Signature of declarant			DRIVER'S SIGNATURE		Signature of declarant	

***Dangerous Goods:**

You must specify: Proper Shipping Name, hazard class, UN No., packing group, (where assigned) Marine pollutant and observe the mandatory requirements under applicable national and international governmental regulations. For the purposes of the IMDG Code, see 5.4.1.4.

** for the purposes of the IMDG Code see 5.4.2

**Documentary Aspects of the international Transport of Dangerous Goods
Container/vehicle Packing Certificate**

The signature given overleaf in Box 20 must be that of the person controlling the container/vehicle operation.

It is certified that:

The container/vehicle was clean, dry and apparently fit to receive the goods.

If the consignments include goods of class 1, other than division 1.4, the container is structurally serviceable.

No incompatible goods have been packed into the container/vehicle unless especially authorized by the Competent Authority.

All packages have been externally inspected for damage and only sound packages packed.

Drums have been stowed in an upright position, unless otherwise authorized by the Competent Authority.

All packages have been properly packed and secured in the container/vehicle.

When materials are transported in bulk packagings the cargo has been evenly distributed in the container/vehicle.

The packages and the container/vehicle have been properly marked, labeled and placarded. Any irrelevant mark, labels and placards have been removed.

When solid carbon dioxide (CO₂-dry ice) is used for cooling purposes, the vehicle or freight container is externally marked or labeled in a conspicuous place, e.g. at the door end, with the words: DANGEROUS CO₂ GAS (DRY ICE) INSIDE-VENTILATE THOROUGHLY BEFORE ENTERING.

When this Dangerous Goods Form is used as a container/Vehicle packing certificate only, not a combined document, a dangerous goods declaration signed by the shipper or supplier must have been issued /received to cover each dangerous goods consignment packed in the container.

Note: The container packing certificate is not required for tanks.
